PREFACE.

In presenting to the citizens of Fort Wayne, the first issue of "Williams' Fort Wayne Directory, City Guide and Business Mirror," the compiler would express his thanks to that portion of them who have sustained the undertaking.

Those unacquainted with Directory publishing, have but a faint idea of the difficulties and obstacles to be encountered in obtaining and properly arranging the necessary information; we, from a long experience, are perfectly familiar with them in detail, and, while asking indulgence for a few errors which must necessarily have crept into the work, we claim that no city of like size in the United States, has a better Directory than the City of Fort Wayne. It contains two thousand six hundred and sixty-eight names.—A very good estimate of the present population may be made from this data.

Our intention is, if we meet with sufficient encouragement, to continue the publication of the Fort Wayne Directory—for the present biennially.

GENERAL OBSERVATIONS.

All letter postage within the United States must be prepaid by stamps.

All transient printed matter must be prepaid by stamps.

The upper right hand corner of a letter is the most suitable place to put the stamp.

Parties should be particular in having legible directions with as little flourishing as possible. The County and State should always be designated as well as the Post Office.

Any writing whatever on printed matter subjects the same to letter postage.

A card printed on an envelope or wrapper of printed matter subjects it to letter postage.

Stamps cut out of Post Office envelopes are not reckoned as postage when used on letters, etc.

Stamps cut in pieces are not received as postage.

All letters remaining in the office over three months are returned to the dead letter office at Washington, where they are examined; if containing any thing of value are returned to the writer at the office at which they were originally mailed
